

Granite Countertop Cleaner

1/4 cup vodka
1/4 tsp. castille soap
10 drops essential oil
2 cups water

Place all ingredients in spray bottle.
Shake well before using.

Note: I use a very inexpensive, high-proof vodka but you can use alcohol instead. It's safest to avoid citrus oils since citrus may cause pitting of granite over time; I like using peppermint essential oil.

1/4 cup alcohol-free witch hazel
5 drops lavender essential oil
3 drops tea tree essential oil
3/4 cup water

Place all ingredients in spray bottle.
Shake well before using.

Note: Feel free to replace the lavender oil with any scent you like. You can find Thayers alcohol-free witch hazel and glass spray bottles on Amazon.

Yoga Mat Spray
